1. The House Appropriations Committee, in the Classified Annex to Report 100-410, directed that action be taken to ensure that a focal point is established on the Intelligence Community Staff to support the audit and inspection functions of the Director of Central Intelligence. In response to the HAC Directive, I have named [redacted] Program and Budget Office, to be the monitor for Inspections and Audits.

2. The first step in meeting this new requirement is to establish whether sound audit principles are employed by each program. Secondly, he will review the audit and inspection activities of each program to determine the level and character of activity. This baseline assessment will then be updated annually, and a report to the Congress will be included in the Congressional Budget Justification Book (CBBJ), beginning with FY 1990.

3. Please provide the name of your point of contact for this effort to [redacted] by 1 April 1988. Thank you for your assistance in this important matter.
